

Puzzle Medical

Devices

MONTREAL, Technical Writer, Full-time in-person

Puzzle Medical specializes in the development of a low-risk percutaneous heart pump for patients with advanced heart failure. Puzzle Medical empowers patients with a treatment option that increases accessibility, improves patient quality of life, and reduces hospitalizations. To date, Puzzle Medical has completed in-vivo preclinical implantations proving implantation, assembly, cardiac output increase and blood integrity preservation; completed a financing round from international VCs, clinicians, and private investors; built a strong Key Opinion Leaders committee; and received U.S. Food and Drug Administration (FDA) Breakthrough Device Designation.

POSITION SUMMARY

Puzzle Medical is presently seeking a highly motivated *Technical Writer*. The candidate will work in close collaboration with the engineering team to fully grasp the potential of the new technologies developed. The candidate will perform patentability searches, draft the patent applications and communicate with the company's patent attorneys. The perfect candidate would have previous experience in the medical device industry and would be able to provide previous applications he or she worked on. It is key for this individual to have a deep understanding of the novelty, inventiveness and utility requirements in the medical device innovation sector.

The individual should value the group's success as his/her own. Puzzle Medical, is looking for passionate "doers" who always keep in mind the mission of the company: democratizing heart failure treatment and improving patient quality of life.

ROLE AND RESPONSIBILITIES

- Identify gaps between the company activities and the intellectual property portfolio
- Perform in-house patentability searches and analyze outsourced searches
- Draft new patent applications based on current and future developments from the engineering team
- Maintain relationships with the company's patent attorneys
- Work with the engineering team on technical reports and documentation management

QUALIFICATIONS

- Experience in the technology industry
- Technical background (ie. engineering degree)
- Ease of adaptation to change
- Strong written and verbal communication skills
- Ability to understand highly technical information

ASSETS

- Previous experience working with medical devices, more particularly in the cardiovascular space
- Intellectual property experience
